

SHRUNGADITHYA A N

+91-8660516904 | shrungadithyaan@gmail.com | Portfolio: [Portfolio](#) | LinkedIn: [LinkedIn](#) | GitHub: [GitHub](#)

SUMMARY :

Highly motivated and results-driven Machine Learning & Full Stack Developer with strong proficiency in Python, Java, PHP, and React. Currently pursuing MCA at BMSIT&M. Proven experience in deploying scalable ML models, developing robust web and mobile applications, and conducting research in biomedical domains. Adept at delivering production-grade solutions and collaborating effectively in cross-functional teams. Seeking challenging roles in AI/ML, Data Science, or Full Stack Development where I can leverage my technical expertise and problem-solving skills.

EDUCATION:

MASTER OF COMPUTER APPLICATION (MCA) | Graduating 2025 | CGPA: 7.95/10
BMS Institute of Technology and Management (BMSIT&M), Bangalore
2023 – 2025

BACHELOR OF VOCATIONAL COURSES (B.Voc) | Graduated 2023 | CGPA: 8.85/10
SDM College
2020 – 2023

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, PHP, JavaScript
- **Web Technologies:** HTML, CSS, React.js, Next.js.
- **Libraries/Frameworks:** NumPy, Pandas, Matplotlib, Scikit-Learn, Streamlit
- **Databases:** MySQL, SQL
- **Cloud Platforms:** AWS, Azure, Firebase
- **Tools & Platforms:** VS Code, Postman, Google Colab, Jupyter Notebook, Clerk
- **Data Science & ML:** Machine Learning, Deep Learning, Exploratory Data Analysis (EDA), Feature Engineering, Model Deployment

WORK EXPERIENCE

PHP Developer | SDM Institute
January 2022 – May 2023

- Developed and maintained two production-level web applications utilizing PHP, MySQL, and modern frontend technologies.
- Managed end-to-end development lifecycle, including frontend and backend logic, deployment, and server maintenance.
- Contributed to successful project implementation, recognized with a 1-year experience certification.
- **Website link:** <https://messrating.sdmes.in/>

INTERNSHIP AND TRAINING

Biomedical Machine Learning Research Intern | Indian Institute of Technology Patna (IITP)
August 2023 – August 2024

- Engaged in research projects focused on Machine Learning and Deep Learning, with hands-on experience in model training using diverse datasets.
- I was worked on the Urea Dataset, applying advanced feature engineering, data preprocessing, and data augmentation techniques to enhance model performance.
- Contributed to the development and optimization of machine learning models for biomedical applications.

Java Training | Revature

- Completed comprehensive training in Java, GitHub, Object-Oriented Programming (OOP), and SQL.
- Gained practical experience in developing Java applications, utilizing Git for version control, and managing databases.

PROJECT

Project Name: IntelliHire: AI-Powered Career Coaching & Mock Interview System

Tools: Next.js, Tailwind CSS, PostgreSQL (Neon), Firebase, Clerk, OpenAI API

Website link: intellihire-nine.vercel.app

Project Details:

- Designed and developed a full-stack career coaching platform providing AI-powered resume reviews, cover letter generation, industry insights, and mock interview simulations.
- Engineered a voice-based interview simulator incorporating real-time speech recognition and personalized feedback to significantly enhance user communication skills.
- Implemented robust Clerk-based authentication with role-based access control, ensuring secure and tailored user experiences.

Project Name: Rate My Food

Tools: PHP, HTML, CSS, JS.

Website link: <https://messrating.sdmes.in/>

Project Details:

- Developed a web application for SDM hostels, enabling students to efficiently rate and provide feedback on hostel food services.
- Implemented a three-tier system with distinct roles (management, admin, students), facilitating comprehensive control and detailed reporting.
- Successfully deployed the application on the college server, ensuring seamless accessibility and integration within the SDM hostel network.

Project Name: End-to-End House Price Prediction Using Machine Learning

Tools: Python, Machine Learning, ZenML, MLflow, Streamlit

Project Details:

- Conducted thorough Exploratory Data Analysis (EDA) and feature engineering to uncover critical patterns and craft compelling data narratives, leading to enhanced model performance.
- Implemented a robust machine learning model with rigorous testing and validation, ensuring accurate and reliable house price predictions.
- Developed an interactive user interface using Streamlit and integrated MLOps practices with ZenML and MLflow for efficient experiment tracking, model management, and seamless deployment.

CERTIFICATES

- **Internship Certificate** from the Indian Institute of Technology Patna (IITP)
- **Experience Certification** from SDM Institute

AREAS OF STRENGTH

- Adaptability & Flexibility
- Learning things at ease
- Teamwork

PERSONAL PROFILE

Name : Shrungadithya A N
Gender : Male
Nationality : Indian
DOB : 21/05/2002
Languages known : English, Kannada, Hindi.

I hereby declare that the information provided is absolutely true to the best of my knowledge and belief.
